“ 30 ” 03 2015

To: Green World Conferences

61 The Ridings, London, W5 3DP, United Kingdom

Dear Madam and Gentlemen,

The Ministry of Energy of Georgia welcomes and has great pleasure to support your proposal of organizing the 2nd International conference HydroTech Georgia, which will take place on 5th & 6th of November 2015 in Tbilisi, Georgia.

The conference plays an important platform to highlight opportunities and challenges in the energy sector in the regional scale. It will bring together key representatives of government and business to discuss new challenges and business opportunities in whole energy sector including large, medium and small scale hydro project development options and investment opportunities, international energy trade potential and legal framework.

We believe that the conference will provide very useful information for energy sector players to fulfill their involvement in full range of regional energy development.

The Ministry of Energy of Georgia wishes success to all participants of HydroTech 2015 and hopes that the practice offered will be useful for achieving their future plans.

Respectfully,

Kakha Kaladze

Vice Prime Minister/Minister of Energy of Georgia
